

# MANAGING RISK IN BEHAVIORAL HEALTH CARE

A BRIEFING SPECIFICALLY FOR BEHAVIORAL HEALTH  
ORGANIZATIONS

A COMPACT DISC (CD) TRAINING

*Learn what **behavioral healthcare providers** can do to improve patient safety and to reduce liability in psychiatric and addiction treatment settings.*

What issues keep you – as a clinical or administrative leader in a psychiatric hospital or residential treatment center – awake at night? **This two-hour compact disc (CD) is centered on your toughest risk management issues.** The training includes risk management in medication treatment (medical, legal, and ethical issues); suicide prevention risk reduction strategies; sexual misconduct prevention strategies; protecting proactive risk assessments (the risks of risk assessment); and more.

The compact disc will help you ensure that your clinical and administrative systems create a “culture of safety” that meets accreditation standards. **And we will include a link to Web-based handouts to expand the training.**

## FACULTY:
