

## ENHANCING THE SAFETY OF THE PHYSICAL ENVIRONMENT FOR BEHAVIORAL HEALTH CARE

### AN AUDIOTAPE TRAINING

*Learn what **hospital and residential providers** need to know to assess risk and improve the built environment in which psychiatric and addiction care are delivered*

Whether you are involved in caring for patients within an existing behavioral healthcare program, designing a new building, or renovating space, this audiotope is designed to help you think through the many aspects of the physical environment that can have a significant impact on the safety of patients, staff, and visitors. The training is designed for administrators, clinicians, building managers, and design professionals responsible for accreditation and compliance issues related to the safety of your building and treatment units. In this two-hour training, you will learn from a top JCAHO environment-of-care expert and national leaders about ways to enhance the safety of your unit, how the Life Safety Code impacts behavioral health, where to locate hard-to-find specialty items, and how to avoid costly design and renovation mistakes. The discussion also introduces the publication of *Guidelines for the Built Environment of Behavioral Health Facilities*, a major new resource authored by David Sine and James Hunt now available at <http://www.naphs.org>.

#### FACULTY:

✘ Britton Berek, MBA, CCE, **Associate Director, Standards Interpretation Group, Joint Commission on Accreditation of Healthcare Organizations.** Prior to joining the Joint Commission, Mr. Berek was with the University Hospital Consortium (UHC), and prior to that he was with the American Society for Healthcare Engineering (ASHE) at the American Hospital Association. While at AHA he was also a Technology Policy Analyst with their Health Technology Assessment Section. He has a clinical background of over 13 years in engineering and management at several different healthcare facilities. Mr. Berek holds degrees in Bio-Medical Engineering and Electrical Engineering as well as an MBA. Mr. Berek is a Certified Clinical Engineer and a Certified Administrative Surveyor for the Joint Commission.

✘ James M. Hunt, AIA, **President, Facilities Services, Inc., Topeka, KS.** Mr. Hunt is a practicing design and facility management professional with more than 30 years experience. Facility Services, Inc., is a facility management company serving healthcare and general business organizations by assisting with efficient professional development and management of their facilities. Mr. Hunt is a registered Architect, holds a certificate from the National Council of Architectural Registration, and began his career practicing architecture for several major healthcare projects. He then served as director of Facilities Management for the Menninger Clinic for 20 years. He was also a founding member of the Health Care Council of the International Facility Management Association.

✘ David M. Sine, CSP, OHST, **Vice President, Occupational Health and Safety, Tenet HealthSystem, Western Division, Santa Ana, CA.** Mr. Sine has worked for more than 20 years in safety, risk management, human factors, and organizational consulting. He has been the state Safety Director of two Eastern states, the Senior Staff Engineer for the JCAHO, and a Senior Consultant for the AHA. Mr. Sine is certified by the Joint Board of the American Board of Industrial Hygiene and Certified Safety Professionals and as a Certified Professional Healthcare Risk Manager by ASHRM. He has been a healthcare risk management consultant since 1980 and has conducted more than 1,300 JCAHO compliance assessment surveys. He serves as a member of the NFPA 101 Life Safety Code Subcommittee on Health Care Occupancies, the JCAHO Committee on Healthcare Safety, and acts as a risk management advisor to NAPHS.
